

# Mathemazician

## Introduction

"Pure mathematics is, in its way, the poetry of logical ideas."

~Albert Einstein

So dare to think of mathematics as a FORM OF ART rather than a mere SUBJECT? Can you forget the conventional and embrace the unconventional?? Do you have it in you to beat the best in the toughest of battles? Can you be the MATHEMAZICIAN...The WIZARD of MATHEMATICS.... Excited??? You should be!!!

## Rules and Regulations

- Maximum team size is 2.
- The maths quiz will have 2 rounds of difficulty.
- The event will be held in March.
- The decision of the judges will be final and bidding.

## Overview

There will be two rounds.

First will be prelims round in which participants will be given aptitude and mathematics based problems. The participants cannot use calculators or cell phones.

In the second round the difficulty of the problems will be increased. Each problem will have several sub-parts and points will be provided for correct solutions.
